Procurement Classification (NAICS)

CODE	CLASSIFICATION
541512	Computer Systems Design Services PRIMARY
541511	Custom Computer Programming Services
541513	Computer Facilities Management Services
541519	Other Computer Related Services
541690	Other Scientific and Technical Consulting Services
561311	Employment Placement Agencies
561320	Temporary Help Services
541612	Human Resources Consulting Services
611430	Professional and Management Development Training

Applicable classifications vary by engagement.

Differentiators

- **Consulting and talent from one practice base.** The engineers who set our delivery standards screen the people we place, so both sides meet the same technical bar.
- **Engineer-led screening, not keyword matching.** Candidates are assessed by people who run the same kind of work, with technical context rather than resume keywords.
- **Governance and security designed into the architecture.** AI Governance & Security spans our Data & AI and Cybersecurity & Identity practices, connecting AI architecture with identity, policy and data governance.
- **Built for regulated and data-sensitive environments,** where security, identity and auditability are part of the requirement rather than a later addition.
- **Works inside your process.** We participate in client-defined sourcing, contracting, third-party risk and onboarding, including MSP, VMS or prime contractor structures.

Security, Risk & Supplier Documentation

Security, privacy, data handling and third-party risk requirements are addressed according to the scope of each engagement. Bella Tech completes client security questionnaires, third-party risk assessments and supplier reviews during qualification, and designs against any framework or regulation that applies to the work. Business, tax, supplier-registration and onboarding documentation is available to authorized procurement teams; sensitive supplier identifiers and financial documentation are not published.

Bella Tech does not certify organizations and does not guarantee regulatory compliance.

Contact

contact@bellatech.io · 765-705-1056 · bellatech.io · bellatech.io/suppliers
